SCHOOL DISMISSED AT 1:00 ON MAY 18

Time Flies!

Where did the year go? Seems like just yesterday we were welcoming students for the first day of school! It is truly a team effort to make sure a child is academically successful

and feels safe and happy at school. I appreciate your responsiveness, efforts, and support. Enjoy your kids and the summer break. Before you know it, we will be starting a new school year-August 15!--Mrs. Bramel

Please routinely check the calendar this month as there are many activities scheduled and students need to be prepared!

Playground Progress

PTO is continuing in their efforts to renovate our playground and to provide more area for our students to play and have fun. With generous donations from individuals and First National Community Bank, we are closing in on completing Phase I, which is to add more playground equipment in the area known as "the pit". The picture of the proposal is located in our lobby area. Until all monies from fundraisers are collected we will not know if the equipment will be installed this summer or during the next school year. We are grateful for everyone's efforts, and look forward to completing this project!

SUMMER SCHOOL

Enrollment for summer school classes is underway. The sooner you turn in your enrollment form, the more likely your child will get to take the class he/she wants. You may turn the form into the office and we will forward it on to Mr. Pritchett, who is in charge of summer school this year. Summer school will again be held at Wyman Elementary-June 4-29.

MRS. LEDBETTER'S 1ST GRADE CLASS WON A TREAT FOR HAVING "ALL THE BEES IN THE HIVE" IN APRIL!

The last day of school, weather permitting, we will have a cookout for our students!

Fourth grade students who are leaving...you will always be a "Truman kid"! We will miss you!
